CUBA IN THE SENATE

Turple Makes an Earnest Plea In Behalf of the Insurgents.

MALE AGAINST MORGAN RESOLUTION.

Chandler Offers a Bill For a Permanent Census Bureau-The House Wrestling With the Senate Amendments to the Appropriation Measures.

Washington, May 11.—The Morgan Cuban resolution was discussed at considerable length in the senate. Mr. Hale of Maine and Mr. White of California spoke against the resolution, while Mr. Turple of Indiana supported

Mr. Hale insisted that the country did not demand congressional action favorable to the Cuban insurgents.

If there was a real sentiment through the country, he said, hundreds of veterans would spring to arms. But on the contrary \$,000 men had started to aid Greece in her struggle where one had gone to Cuba. Mr. Hale closed with a motion to refer the resolution to the committee on foreign relations.

The Cuban resolution was laid aside temporarily to allow Mr. Vest to secure agreement to a resolution directing the committee on commerce to inquire into the causes of the recent floods on the Mississippi river and report to the senate next December. The consideration of the Cuban resolution was resumed, and Mr. Turple of Indiana spoke in sup-

He said the sympathy of the people of this country was universal in behalf of the struggling Cubans, but it was time now to give this sympathy official expression. Practically, he said, the present war of independence was in its thirteenth year, the first period of the war having lasted ten years. When the terms of the temporary truce were violated, then this second period of the same war for independence broke out. No government, monarchial or otherwise, has succeeded in subjugating a nation which had made up its mind to be free and to throw off oppression.

"It is the age of revolution." exclaimthe senator, "and I hope that it may last long enough to drive the last remmant of monarchy from the American continent." The senator took up Mr. Hale's plea that the president should be left unhampered to pursue his inquiries. "How can the president learn anything we do not know?" he asked. The president's special commissioner was limited in his inquiry to the Ruiz case. We might as well send a special commissioner to Athens to find out whether war exists between Turkey and Greece as to seek further information as to Cuba.

A vote on the resolution was not reached, as Mr. Morrill of Vermont gave motice that he desired to speak upon it. The senate committees were named in accordance with the previous agreement Detween the Republican and Democratic steering committees!

Mr. Chandier, chairman of the committee on census, reported favorably the bill providing for taking the twelfth census and contemplating the establishment of a permanent census bureau. The original bill is modified so that the director of the census is to receive \$5.000 per year.

Proceedings of the House. The house resumed the transaction of

public business, which had been suspended since the Indian appropriation bill was sent to conference three weeks ago. The consideration of the senate amendments to the sundry civil appropriation bill was entered upon under a special order providing for a recesseach day until disposed of.

Mr. Simpson of Kansas attempted to harass the majority with points of no quorum, but without success.

The debate was mainly confined to the discussion of the senate amendment to restore the lands reserved as forest reservations under President Cleveland's order of Feb. 22 to the public do-

Mr. Hartman moved a conference on the senate amendment relative to the forestry order.

Mr. Lacey moved concurrence with amendments providing for the suspension of Mr. Cleveland's executive order until March 1, 1898, when the order, as it may be modified, shall go into effect, and substituting what is known as the McRae bill for the provision permitting the use by bona fide settlers of timber

and stone on such reservations. Messra. Shafroth. Bell and Jones argued for the zenate amendment. A vote was not reached on the amend-

Incidentally the Dingley tariff bill

came up in the debate. Mr. Wheeler (Dem.) of Alabama used B pro forma amendment to refer rather sensationally to "the very important admission" made in an interview by "the distinguished chairman of the ways and means committee, Mr. Dingley, to the effect that the real purpose

of the tariff bill was to create a sur-

plus and impound the greenbacks." Mr. Dingley replied with emphasis that he had made no such statement. Mr. Fowler of New Jersey introduced in the house a bill for the creation of a tariff commission to investigate federal taxation, to recommend changes and to adjust inequalities of existing law. The bill provides for a commission of seven members at a salary of \$7,000 per annum, with a term of office each of 21 years. The commission shall, under the terms of the bill, make annual reports to the president, and it is given power, with the written approval of the president, to suspend any tax

ITALY ON OUR TARIFF.

Her Minister Says It Would Be an Error to Betaliate.

Rome, May 11.-In the chamber of deputies the minister of finance, Senor Luzzatti, replying to Count Delia Rocca, said it would be a serious error to retaliate against the United States, since the Dingley bill permits a new convention. Italy, the minister added, will open negotiations to protect her exports, which include nearly all agricultural products.

American imports, chiefly petroleum, he explained, are taxed 400 per cent, and the cotton necessary for the manufactories of tobacco is bought by the government. It would not be practical to increase the duties upon these imports. They must await the action of other countries whose commerce with the United States is more important.

In spite of the tariff, Senor Luzzatti continued. Italy's commerce may increase, and they should wait for the results of the experiment.

In conclusion, Senor Luzzatti assured the house that the government would devote every attention to the question and would carefully protect the commerce of the nation.

A CUBAN STOWAWAY.

A Rich Planter Found on Board of an American Bark.

New York. May 11 .- On board the American bark Nineveh, which arrived from Cienfuegos, Cuba, was Antonio S. Salas, a Cuban, who stowed away on board the bark shortly before sailing from that port. He was discovered in the after hold when the vessel was about 24 hours at sea. Salas is an intelligent Cuban, aged 46 years, and was the proprietor of three large stores in Cienfuegos, but was obliged to leave the country owing to his sympathy for the insurgent cause.

Salas and about a dozen of his friends had been supplying the insurgents for many months with clothing and medicine, and were all captured by the Spanlards excepting Salas, who succeeded in eluding his captors and boarded the Nineveh as she was about to leave her wharf. Salas will be sent to Ellis island, but intends to sail shortly for Paris. He has a brother who is a machinist in the Baldwin Locomotive works at Philadelphia.

Greece Must Place Herself In the Hands of the Powers.

ABSOLUTE ABANDONMENT OF CRETE.

Germany Exacts Her Military Conditions, Which the Hellenes Are Forced to Accept-Another Cabinet Crisis Imminent-Hints of Revolution.

Athens. May 11-The conditions of mediation insisted upon by Germany. the chief of which is that Greece shall give her formal consent to the principle of autonomy for Crete, will be accepted by the Greek government.

The note of the powers has not yet been presented, but it has been drawn and is to the following effect:

Upon a formal declaration by Greece that she will recall her troops and agree to such an autonomous regime for Crete as the powers in their wisdom shall deem best and accept unreservedly the counsels of the powers they will intervene in the interests of

It is understood that Greece in her reply will assent to all these conditions.

M. Ralli, the premier, and M. Skouloudis, the minister of foreign affairs, have had a long interview with Mr. Egerton, the British representative, which has caused considerable comment. It Is believed to be connected with the expected intervention of the powers. A dispatch from Domokos says that the heavy rains there prevent fighting.

The Situation at Volo.

Larissa, May 11.-Affairs at Volo are fast assuming their normal condition. but the inhabitants are very indignant at the way in which they were deserted by the Greek troops. It is said that when the municipal authorities asked the military commandant what they were to do when the Turks arrived he replied, "Do what you like. It's no concern of mine."

The Turks found a quantity of railway material at the Volo railroad station, but they were unable to use the engines, as the Greeks had removed the

The French naval detachment saluted the Ottoman troops, and the latter responded.

The Turkish officers complain of the nonresistance of the Greeks and declare it is not war but merely a military

The opinion is expressed here that the Greeks are avoiding a serious fight in order to spare their troops, who may be needed in Athens in the event of a revolution.

The Greeks at Almyros are in a state of panic. The newspaper correspondents with the Greek forces are subjected to the severest censorship. General Smolenski is highly praised, but the prevailing opinion is that the majority of Greek officers have had only the smallest practical training and entirely fail to command the confidence of their men.

The Turks have no doubt whatever as to the speedy capture of Domokos, although the place is fairly well defended. Edhem Pasha and his staff have gone on to Pharsala.

The Cause of the Retreat. London, May 11.-The Athens corre-

spendent of The Daily Chronicle says: "The real cause of the Greek retreat to Pharsala was the blunder of one who mistook the retreat of the enemy for a forward movement designed to outflank the Greeks and therefore ordered a hasty retreat.

"The Crown Prince Constantine left Larissa because he believed the exaggerated reports of danger to his forces It is a fact, however, that on the evening of the retreat Edhem Pasha, despairing of breaking the Greek lines, had ordered his army to retire to Elassona, while the sultan had dispatched a special commissioner to the Greek government with overtures of peace.

"The state of the Turkish army at that moment was simply critical, and terror reigned at the Yıldiz kiosk."

Thessalians Flee to the Mountains.

London, May 11.-The Athens correspondent of The Standard says that almost the whole population of Thessaly, numbering 350,000, has fled to the mountains in the west. Refugees from Volo. Pharsala and the villages around Mount Pelion have been transported to the islands of Skiathos, Skopolos and Eubœa. Forty-five thousand refugees from villages along the coast are clamoring for food at Almyros.

Ripe For Revolution.

London, May 11.-The correspondent of The Daily Mail at Patras says: "Everything is ripe for a serious political crisis or for a revolution. The army is disgusted and the armed peasantry in universal discontent. The Greek National society could not have a better opportunity."

Greeks Lose Another Position.

London, May 11.-The Athens correspondent of The Times says: "The Greek army has been compelled to abandon Salagora and Fort Imaret, the Turks having occupied the heights commanding the latter."

Says It Was Rank Cowardice, London, May 11.-Mr. Stevens, the

special correspondent of The Daily Mail with the Greek forces in Thessaly, declares that the province has been lost through rank cowardice.

Probably Another Ministerial Crisis, London, May 11.—The Daily Mail's Berlin correspondent says it is reported there that the king of Greece has summoned M. Delyannis in view of a possible cabinet crisis.

An Interview With the South African

Republic's Postmaster General-He Says the Situation Is Grave In His Country. New York, May 11 .-- Isaac Van Alphen, postmaster general of the Trans-

vaal, and his secretary, S. J. C. Vana Tigen, have been stopping at the Holland House. They have just departed for Washington to attend the international postal congress.

"All the South African states," said Mr. Van Alphen, "are inhabited by the Boers. Sixty years ago we went to Cape Colony. The English drove us out, and we went to Natal. Then John Bull saw what a fine country that had become, and he said it was his, and so we were forced to move again. 'Go to the Orange Free State,' he said, and we went. At last we were driven from there over into the Transvaal.

"At that time the Transvaal was full of wild beasts and Zulus. We whipped the Zulus and killed off the wild beasts. Then they wanted to take away the

Transvaal. "They did do it, and we had all our plans made to move to Mashonaland after burning all our towns behind us, but they finally gave us back our coun-

try, and we are still there. The Situation Is Grave.

"The situation there now is very grave. We are all for peace, but if it must be fight-why, then we will fight to the last. We don't mind having the uitlanders in the Transvaal. Let them come and make all the money they want if they will only let us alone, but the trouble is they don't stop there.

"They boom the share market in mines, and then they depress it so as to make speculation. They have forced up wages so high that we can't work our properties at a fair profit, and what we would have refused £40,000 for five years ago we are now glad to sell for £20,000."

"What sort of a man is your presi-

dent?" was asked. "Ah," he replied with enthusiasm, "he is the greatest of living statesmen. Paul Kruger is a man who knows no language but the Dutch. He can read it. but he is apt to make mistakes when he writes it. But he is the greatest pollucian that ever lived. He has done everything for the country. John Bull can't fool with him."

No Diphtheria Present.

Albany, May 11.—In December last Dr. George B. Silliman's son, a stu dent at St. Stephen's college, Annandale, was afflicted with acute tonsilitis and called a local physician, who diagnosed the case as diphtheria. The young man was quarantined and required the college to be dismissed. A culture tube was sent to the college inoculated from the throat of young Silliman, and on examination by expert bacteriologists it was determined there was no diphtheria bacilli present. Dr. Silliman was indicted by the grand jury for violation of the health District Attorney Wood of Dutchess very frankly stated that on a full investigation he was unable to establish the fact that the boy had diphtheria, and the case was dismissed.

Capsized by a Squall.

New York, May 11.—The yacht No Name, flying the flag of the West End Yacht club of this city, was upset in the Hudson river off the Edgewater Oil works, near Fort Lee, N. J. The yacht had four men on board. They were Andrew Hurecke, Frederick Bard, C. Doner, all of New York, and an unknown man, who was taken on board at Eighty-fifth street to aid in handling the boat. The yacht was struck by a squall and capsized. Doner, who was the owner of the boat, and the unknown man were unable to swim. They were kept above water until several shad fishermen, who were out attending to their nets, went to the rescue. Doner was revived, but it is thought the helper will not recover.

Archbishop Thanks the Government. Paris, May 11.-Cardinal Richard, the archbishop of Paris, has written to President Faure thanking the government for having taken part in the funeral ceremony on Saturday last at the Cathedral of Notre Dame, where a requiem mass was celebrated for the repose of the souls of the victims of the charity bazaar fire, and expressing confidence that the ceremony will mark an epoch by the union of all Frenchmen in their devotion to the country, and that henceforth there will be no dissension to separate French hearts unit-

that the consolidation of the Baltimore Traction and the City and Suburban Street Railway companies is practically settled, that the agreement has been signed and nothing remains to be done save to obtain the consent of the stockholders. A meeting for that purpose will be held on May 29.

THE LEONA DISASTER.

Thirteen People Burned to Death-Captain Wilder Piaced Under Arrest.

New York, May 11.-Captain Wilder, in charge of the Mallory line steamship Leona, on which 13 lives were lost by fire, has been placed under arrest, pending the coroner's inquiry into the cause and responsibility for the disaster. No specific charge is made against Captain Wilder, and the coroner paroled him in the custody of Charles Mallory, one of the members of the steamship company. The inquest was set down for next Monday, and all passengers on the ill fated vessel were required to remain in

the city until after that time. The Leona was en route from this port for Savannah, and was off the South New Jersey coast, within 30 miles of Cape Henlopen, when, about 2 o'clock in the morning, fire started in the hold and resulted in the death of 13 persons-10 steerage passengers and 3 of the

Petition Signed by Senators to Be Sent to the President.

New York, May 11.-Friends of E. R. Chapman, the contumacious witness before the United States senate sugar investigating committee, admit that the strongest pressure is being brought to bear to save the broker from the ignominy of a stay in jail.

Several senators have signed a petition asking for Chapman's pardon, and the petition will be sent to President McKinley in a few days. Final disposition of the case will probably be made during the present week. In the meantime Chapman is in daily attendance at his office, but his affairs are so arranged that if necessary he will go to Washington and serve his sentence without further loss of time,

Large Paper Plant Sold.

Livermore Falls, Me., May 11.-The plant of the Jay Paper Manufacturing company at Jay Bridge, which has been shut down since December on account of a lack of orders, has been sold in the interest of creditors by a committee chosen some weeks ago to adjust the company's affairs. The committee de clines to make public the names of the purchasers, but intimates that they are prominent New England capitalists. The plant is one of the finest in the country for the manufacture of paper and wood pulp. It was built only a few years ago, the original cost being \$450,-

wall Gun club members have raised a point for Excise Commissioner Lyman to decide. They made an application for a liquor license. This was refused by County Treasurer Mead, as the town of Cornwall decided this spring to allow only druggists to sell on the "liquon club basis." Their demand is based on the Raines law provision which allows ciubs organized previous to March 23. 1896, to sell liquors during certain hours and also on the ground that no opportunity was given to people to vote on the proposition to license clubs.

GEN. FRANK WHEATON. The Junior Major General in the

United States Army. Gen. Frank Wheaton entered the army in 1855, and during his service before the war he was stationed at old Jefferson barracks, on the heights above the Mississippi river near St. Louis. In 1856 he was in Kansas in the field against the Cheyenne Indians. He served later in the Indian troubles, and in 1861 he became a captain. He went to the big war as a lieutenant colonel of the Second Rhode Island volunteers, and took part in the battle of Bull Run. He was attached to the Army of the Potomac, and passed through the Peninsula and Maryland campaigns. In 1862 Col.

GEN FRANK WHEATON.

(Will Retire from Active Service May 8.) Wheaton was made a brigadier general of volunteers for gallant conduct on the field of pattle. He distinguished himself in the operations in the Shenandoah valley and in the campaign which ended in the surrender of Appomattox in 1865. Gen. Wheaton was in every way deserting as a soldier in the active work of war which he did in the four vears of strife which disturbed the country, and the testimonials to his courage and valor were numerous. At Opequan, at Fisher's Hill, at Middleton. Va., in the Wilderness, at Petersburg. and Ceda: Creek, he was in the forefront of the brave defenders of the United States flag. In 1866 he was lieutenant colorel of the Thirty-ninth infantry in the regular army, colonel in 1874 and later brigadier general of the regular army. He once earned the personal thanks of Abraham Lincoln for saving the city of Washington from an attack by Gen. Early.

COMMISSIONER PAINE.

New England's Member of McKinley's Bimetallie Committee.

The President has acted upon the suggestion made in his inaugural ad dress, and has appointed a monetary commission to gather information about an international standard of coinage and to discuss this great matter with the officials and the authorities in other countries. This commission consists of ex-Vice President Stevenson, Senator Wolcott and Gen. Charles J. Paine, of Boston. With Mr. Stevenson and Mr. Wolcott the public is well acquainted, but Gen. Paine has a large fame only as a yachtsman. But he is a man of fine mind without hampering prejudices. In regard to international bimetallism, says Leslie's Weekly, he agreed thoroughly with the late Francis A. Walker. In politics he is said to lean towards the democracy, but last year he voted for McKinley. He is largely inter-

He is 64, but does not look it. He won his title in the civil war. He left Massachusetts as a captain, and he brought home with him as a tribute to his bravery at Fort Fisher a brevet major generalship. As a yachtsman he has won great fame. Three times he defended the America's cup, with the Puritan, the Mayflower and then the Volunteer. In 1895 he had the Jubilee in the field as a defender, but she was not the lucky boat selected to sail against the Valkyrie.

Fishes in Captivity.

Fishes in aquariums when first placed in captivity are likely to be wild and to seek constantly to escape. Sooner or later they quiet down, and often they become very tame; they feed well, and grow, and seem quite settled and content in their new home. But it may be that some fish, after a year of this quiet, routine life, are suddenly seized again with a desire to escape and go wild in their efforts, roaming the tank incessantly, and finally killing themselves by running blindly or recklessly into a wall. Fishes are sometimes greatly disturbed by parasites; but fishes that are perfectly sound take on sometimes in this manner, and their actions seem attributable only to the awakening of an intense desire to be free again.

The Size of Spools. The average-sized spool for sewing thread is two inches high and 11/2 inches in diameter at the ends. A spool

Cleveland, May 11.-The circuit court discharged Editor Post, arrested, convicted and sentenced for contempt of court by Judge Lamson of the common pleas court about six weeks ago. Post had written an editorial which was a stricture on court methods in general and Judge Lamson's methods in particular. The case was dismissed, and Post was discharged.

Lawyer Charged With Forgery, Paterson, N. J., May 11.-Michael M. Kitchie, a lawyer of Lyndhurst, was brought to this city and is now in the county jail pending the finding of bail. He is charged with forging the name of John H. Keogh to a check. Ritchie left the city a couple of weeks ago, when a warrant was issued for him. He has since been indicted.

Large Iron Deposits.

St. Johns, N. F., May 11.—English experts who have been inspecting the large iron deposits in the vicinity of Concepti n bay, deposits more than 14 miles long, report favorably upon the quality of the ore, and it is probable that the tract will be extensively worked during the coming summer by an English syndicate.

Schooner Strikes a Rock.

Newfoundland, May 11 .- The schooner Mary struck a rock off Renowse, a port about 50 miles south of St. Johns, and her crew of seven narrowly escaped drowning.

Earthquake In Australia.

No serious results are apprehended.

Melbourne, May 11.-A severe seismic disturbance took place in South Australia and Victoria. The shock was intermittent and continued for several minutes.

Collapse of an Empire. The probability of the collapse of the

Austrian empire before many years is great. The archduke, Franz Ferdinand, nephew-and, since the death of his father, Archduke Karl Ludwig, heir presumptive-of the emperor of Austria, is now in his 33d year, but in health so feeble that he was not allowed to attend his father's funeral. He is unmarried. Since he inherited the property of Francis V., the last duke of Modena, in 1875, he has styled himself archduke of Austria-Este. This erchduke's heir and brother, Archduke Otto, has made himself so notorious throughout Europe by his proffigacy that it is doubtful now if even Austria would accept him as a monarch. The aged emperor has, therefore, as heirs a dying invalid and a discred-Ited man. The various races of the beterogeneous empire are ready at a convenient moment to assert their independence.—St. Louis Republic.

BARGAIN--The Word and Its Uses.

The word "Bargain" is trite. So is every word and every subject that must be faced constantly; it has no good synonym. It is the best word in the language to describe merchandise that is offered below normal value.

No other Orange county business ever collected such quantities of as many sorts of superior goods at prices so curiously low.

We MUST tell you about them, therefore we MUST say "Bargains." Until you give us a better word it shall be "Bargains, Bargains," otherwise you won't know. Isn't that clear?

■ The Ribbon Sale.

You wonder where we find corners enough to stow away the reserves—for each morning finds the counter piled full as ever with the finest Ribbons of the year. Gladness Comes

With a better understanding of the transient nature of the many physical ills, which yanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs. promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal eleanliness without debilitating the organs on which it acts. It is therefore all important, in coder to get its beneeffects, to note when you purchase, that you have the genuine arti cle, which is manufactured by the California Fig Syrup Co. only and sold by all reputable drugg sts.

If in the enjoy nent of good health,

and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the weil-informed everywhere, Syrup of Figs stands highes: and is most largely used and gives my peneral satisfaction.

A Pollsh for Linen.

A laundry polish for shirts, collars and cuffs may be made as follows: Melt together one ounce of white wax and two ounces of spermaceti with a large spoonful of salt. Dissolve these ingredients over a slow fire and pour into a wet cup to cool. Make boiled starch in the usual way, cooking it slowly for 20 minutes, and for every tablespoonful of dry starch used, put a lump of the above preparation about as large as a cherry. Use no cold starch, and do not sprinkle. When the starched pieces are dry, lay them in a wet towel for two hours and bring up the gloss by rubbing evenly with the heel of a polishing iron. The great secret in glazing starched goods is to use the polishing iron properly.-St. Louis Republic.

IMPORTANT TO SUFFERER'S

HOW YOU MAY OBTAIN A LAST-ING CURE FOR PILES.

No Surgical Operation, No Pain. Trifling Expense-A Simple, Harmless Remedy, but it Does the Work.

There are some people who have pile as frequently and regularly as other people have colds.

Any little bowel trouble will bring them on, any extra exertion, as in lifting, will produce them, and in fact they often appear without any apparent provocation. Piles, however, are much more serious than a cold, as the tenden. cy is always to grow worse until the trouble becomes deep seated and chronic, or develops into some fatal rectal dis-

While there are many pile remedies which give relief, yet there is but one which not only gives instant relief but at the same time makes a permanent cure, and that is the well known Pyramid Pile Cure.

This remedy is composed of simple, harmless, vegetable ingredients, but combined so effectively and acting so promptly and thoroughly that it cures every form of piles whether itching, bleeding or protruding.

In long standing cases the Pyramid Pile Cure has proven to be the only certain cure except a surgical operation, and its advantages over an operation are many, as it is painless, causes no delay, or interference with daily occupation and last but not least, it is cheaper than any surgical operation could possible be, costing but a dollar a package at any drug store. The cases that the Pyramid Pile Cure

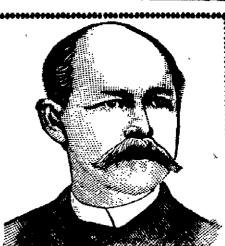

will not reach are so few that physicians are doing away with operations for piles and depending on this cheap but effective remedy to accomplish a complete cure, and it never disappoints except in cases beyond the reach of medical skill.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co., of Abion, Mich., and for sale by druggists everywhere at 50 cents per package. Euch package contains a treatise on cause and cure of piles, together with testimonials from every section of the country.

A very successful test of the third rail electric system was made on the New England road, yesterday, between Hartford and New Britain, a run of ten miles having been made in thirteen and onehalf minutes. The electric current is transmitted by means of a third rail laid on blocks of wood midway between the rails on which the cars run, which are used to carry back the return current. Experiments have shown that there is no appreciable loss of power as is the case with a trolley line, and that power can be transmitted for long distances. President Clark, of the New Haven road, is sanguine as to the possibilities of the new system, and says that he believes a road can be operated by it at a fourth of the cost of operation by steam and very much more cheaply than by an overhead trolley.

MISFORTUNES NEVER COME SINGLY

Egbert Arnout's Team Runs Away in

That misfortunes never come singly was demonstrated again, this morning. Elsewhere will be found au account of the accident to Egbert Arnout on the N. Y., S. and W. Railroad, When Mr. Arnout started to drive to Slate Hill he instructed his bired man, Z. Bailey, to bring the milk to the State Hospital in this city.

After delivering the milk Mr. Bailey drove to Orchard street and fied his horses to a telegraph pole, while he went into the post office. As he came out he heard the rattling of his milk cans and reached the corner in time to see his team running down Orchard street.

The wagon collided with a fire alarm pole in front of the Crist house, on East Main street, and both horses tell and slid over the walk and stone against the brick building on the corner, where they were caught before they could regain their feet....Both horses were bruised and scratched.

The wagon was badly damaged, one wheel, the pole, a spring, a whifilletree and the brake rod being broken.

HEALTH LAWS WERE NOT VIOLATED

The Indictment Against Rev. Dr. 500man Quashed.

The District Attorney of Dutchess county, yesterday, moved to quash the indictment found against Rev. Dr. George D. Sillman, of Albany, formerly rector of Grace Church, this city, for violating the public health laws in removing his son from St. Stephen's College after he had been quarantined by the local health authorities as a diphtherm patient. Dr. Silliman was prepared to prove by the bacteriologist of the State Board of Health and competent Albany physicians that the boy had tonsilitis, not diphtheria and the District Attorney in moving to quash the indictment trankly admitted that he could not establish that the case was one of diphthena.

on-No Trouble Feared by Independent Exchanges.

BY ASSOCIATED PRESS.

Madison, Wis., May 11-President Spooner, of the Standard Telephone Co., says his information is that the Supreme Court decision simply acquits the Bell Co. and the patent office of fraud and collusion in the issuance of the Berliner patent and that the merits of the patent were not involved.

Advices from independent exchanges all over the country show them auxious to try conclusions with the Bell Co., and if the decisions of the United States Supreme Court in other cases are followed, the Berliner patent will finally be declared void. There is no cause of alarm to users of independent telephones.

Correspondence ARGUS and MERCURY -Rev. R. J. Diven attended the C. E. convention at Chester as a delegate from the society here. Sunday evening his remarks were based on what he heard at the meeting and were both interesting and instructive.

-Among the improvements made by property owners is a new root onthe house of N. W. Beyea and Mr. Rumalls and Emmet Writer have given their houses coats of paint. Mr. Writer changed the color of his house and it is now white with green blinds.

-It is a pity some one does not build a spacious hotel on the hill overlooking our village, where pure water and the best of air can be found, while the railroad facilities are all that any reasonable person could ask.

. -Miss Edna Beyea, who has spent seven weeks very pleasantly among friends in several places on the O and W., returned home Friday of last week. -The many friends of Samuel Beyea, of

New Vernon, will be pained to hear of his serious illness. -The Dramatic Club, of this place, is

renearsing a play to be given some time during the month. -The Ladies' Missionary meeting will

be held at the home of Mrs. Chauncey Tymeson, Jr., Saturday at 3 o'clock. -The floral committee of the Presbyterian Church remains the same as last

year. They proved so efficient that no change was thought necessary. -John Pierson lost a horse Sunday night and another is very sick.

-Mrs. Harriet Hoyt left, Friday, for Auburn, having been called there by the death of a sister-in-law.

-Mrs. Dodge, accompanied by her ueice, Helen G. Pierson, went to Philadelphia, on Saturday. If the trip proves beneficial Mrs. Dodge expects to visit relatives in Pennsylvania before return-

-G. Herbert King went to New York, Thursday, to try the civil service examination. He returned Friday.

-Among those from out of town who were here Sunday we noticed Mr. Scott. Isaac Scudder and Henry C. Still, of Middletown.

The People Are Convinced.

Mr. Arnout had taken his brother-inlaw, Benjamin Dunning, to Slate Hill, that he might take the train for New York, and, after getting some fertilizer at the store, started for home, going a roundabout way in order to inquire about agirl to do housework.Mr. Arnout is quite deaf, and as he approached the crossing heard none of the warnings of danger given by the approaching train, and, thinking that the train had passed, he did not keep a lookout for it. When he was squarely on the crossing he saw the train almost upon him. He shouted to his horse which sprang forward and had -Newburgh'is looking to Murderer's he been an instant quicker, he would have escaped unburt. As it was the engine struck the rear rim of of the hind wheel, "slewing" the wagon and almost demolishing it and throwing Mr. Arnout to the ground. He struck in a pile of rocks and was badly cut about the head and bruised about the body.

The train was stopped and the trainmen picked Mr. Arnout up, placed him on the train and took him to Slate Hill, where he was turned over to his friends and Dr. Meyers called to attend him. He was conscious and was able to give the above account as to how the accident happened and to give instructions to the men who lifted him into the wagon in which he was taken to his home.

Mr. Arnout's right eye was very badly bruised, and there was a cut on his forehead and another under his chin, în both of which it was necessary to take several stitches. These are the only external injuries but when being moved and since his arrival at his home he has complained of very severe pains in his back and it is probable that he has sustained other injuries than those above noted.

Mr. Arnout has not lost consciousness at any time and at last accounts though very sore and unable to move or be moved on account of the pain in his back wasin good spirits and confident that he would be able to be out in a few days.

"THE RULE OF THE ROAD."

Something Bleychots Should Read—Suggestions That Should Be Heeded by Reckless Riders.

The rule of the road that applies to all other vehicles should govern riders of wheels, but the majority of wheelmen, and especially wheelwomen, don't seem to understand it that way. They apparently think they have the right of way and drivers and pedestrians must keep out of their path.

A gentleman who drives about the streets a great deal stated to an Angus reporter that more than one-half of the bicycle riders he meets disregard the well known rule of the road-to keep to the right-and act as if they thought he ought to get out of their way. He has had many narrow escapes from collisions when he has followed the rule, by the riders of wheels persisting in keeping on their course or in passing on the left instead of keeping to the right as they sbould do.

Now that nearly everybody rides a wheel it would be well for all to understand that the same rules that apply to wagons and other vehicles apply to bicycles. One of them is that they must always keep to the right in passing, and another and a very important one in this city at least is that pedestrians have the right of way and are not compelled to dodge here and there to escape being run down while crossing a street.

DIM LIGHTS AFTER MIDNIGHT.

A Complaint as to the Incandescent · Light Service.

A taxpayer and a patron of the Electric Light Co. complains to the Augus of the poor quality of incandescent lights, both in the streets and houses after midnight. This is due doubtless to the shutting off a of portion of the current after stores and hotels are closed, when more power is shut off than is intended. A test of the lights after midnight would enable the company to guage the amount of current needed to supply the street lamps and such other incandescent lights as are test burning all night.

TWO WEDDINGS.

When Drood Harris heard the cheery. musical laugh of his wife in the parlor as he sut in the library, he laid aside his book, tossed his eigar from the window and went to the scene of merriment. Though they had two little tots that precluded the possibility of gloominess in the household, the father was as much a lover as in the days of courtship and would have been irresistibly attracted by that laugh even though his business in hand had been much more

"What is it now, little one?" he asked. ith a sympathetic smile, as he entered. The diminutive title did not at all fit the glowing and happy young matron to whom it was applied, for she was tail, graceful and possessed of that rare beauty which is found in expression rather than in an analysis of features. Her feelings flashed upon her face with a distinctness that was not to be mistaken by those who knew her wellwas just going to tell Miss Archiey about the time your father interviewed me, Drood, and you know that a lauga s always my prelude to a story. In itself and in the sequel it will never cease to be funny to me."

"Go ahead. I'm going to stretch myself in this easy chair and hear it all over again."

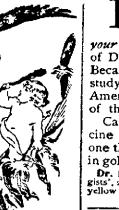

"There is only one of the characters to be introduced to you, Kate," she began, addressing the visitor, and you will soon know him. Up to about the time Drood and I were married his fataer was a perfect ogre. That's what he was, Droud, a perfect ogre. Westwo foolish young people became engaged without consulting his austere majesty. He lived in a splendid mansion just outside the town, set well back from the road in a grove of oaks and maples. Its location was typical of his exclusiveress. Drood was back from college, and had been admitted to the bar before he asked me to become his wife. He is gifted with eloquence, you know, and I have no doubt would have made a convincing argument in my behalf, but after he had stated that I was a music teacher without means the father would hear no more. He threw the case right out of court. Drood must choose be tween me and his prospective inheritance. Of course, the dear fellow never hesitated.

"But Drood is an only son, and such a son as it is hard for even the sternest father to cast out. So he came to the little cottage where I lived with my aunt to frighten me out of the field." "Misguided man," laughed Miss Arch-

To the Young Face Potroni's Complexion "owner gives from

my son would be to ruin his chances in life. For her to persist in the folly they have arranged will be to deprive him of a quarter of a million of property and a brilliant career."

" 'Pardon me." said auntie, with a na:row escape from a snort, it will be your fault and yours only if these losses De visite d upon your son. It is you who threaten to cast him out penniless. No one else has thought of being cruelly unjust toward him.

" 'You are mistaken, madam. I have told this young lady that the matter rests entirely in her hands. She has the deciding power.'

" 'You are accusing yourself of moral cowardice, sir. You profess to love your son, yet you stand ready to cast him out as a pauper provided you can blind your conscience by accusing some one else of the enormity. Laura's love is such that it will cling to him after you have stripped him of what appears to have supreme value in your eyes. You propose to disown your own flesh and blood. When you have done your worst, she will share the fate you so unnaturally inflict.'

" 'You employ strong language, madam. But it is not for you to say how much my heart enters into this affair, There are social considerations that you cannot appreciate. To ignore them by permitting this marriage to take place would be to place a millstone about my son's neck. But I see a possible way out of the difficulty, and I have presented it to your niece. If she will go at my expense to any of our more select seminaries, where she can acquire the education and the accomplishments such as should be had by the wife of Drood Harris, the objections I urge will be withdrawn. But she flatly refuses.' "Now auntie was grand in her anger.

'Of course, she resented, as well as refused, sir. Such an offer was an insult to a Wilcomb. Social considerations. indeed!' Then she opened with grape and canister. Do you speak French, German and Italian in addition to your native tongue, Mr. Harris? Are opcratic managers besieging you to sing on the stage? Were you ever abroad three years at a time improving your mind and mingling in society at the European capitals? Can you tell me the name of your great-greatgrandfather? How many of your direct antecedents fought in the revolution? What is your family coat-of-arms? What dignitaries of state are attracted here because of your provincial greatness? What one of your proud race in either branch ever sacrificed a million to help a loyal friend?

"I tried to stem the rushing current. Why go into family matters, auntie?" " Don't interrupt, Laura. This man invited it. For him to raise the question of family, when I took such credit to myself for waiving it in his behalf! I hope, sir, that you will inform yourself before you undertake a matter so delicate, and if you do withhold that boy's patrimony we will not be without

compensation.' "'How so, madame?' asked Father Harris, who was more nearly van-

asked me if I would sing for him.

"'She could searcely be expected to sing for a quarter of a million dollars under existing circumstances,' declared auntle, sarcastically. I had no idea that a man of his temperament could be passionately fond of music, but I felt that he had gone through a very bad half hour, thought of Drood and sang an old Scottish love song-sang as I never sang before, for it was the cay of my heart to its lover. I could scarcely believe it, but Father Harris has since admitted that there were tears in those cold gray eyes of his, and he had me sing until a ring at the doorbell announced some one else to be entertained. Then he put his arm around me, looked down into my face with a smile that had lost everything but tenderness and told me how proud he would be to have me for a daughter. 'I was foolishly mistaken,' he said, 'but my son should be a sufficient peace offering.' Then he added, disconnectedly: Your aunt is certainly a remark-

able woman. "It was only a little later, you know. that I unexpectedly came into a fortune which we had given up as lost, but in the meantime it had been arranged that auntie was to become my mother-in-law. How those two botheads reconciled their tempers and learned to love in so brief a courtship is beyond me. But auntie frequently hopes that I have as good a husband as hers."-Detroit Free Press.

A Puzzler.

In many parts of South Africa railways are comparatively a new departure, and in consequence a large pronortion of the farmers are wholly ignorant of the way engines work. One stalwart colonist who thought himself eleverer than his companions was standing on the platform at Bloemfontein, the capital of the Orange Free State, during shunting operations. He had been explaining the principles of steam motive power to an amused crowd, when suddenly the engine began to move backward, pushing a string of trucks. His jaw dropped and he gasped out: "I can understand how the engine pulls the trucks, but I'm blessed if I know how the trucks pull the en-gine back again." Then the crowd yelled .- Answers.

DOES YOUR WATCH KEEP

GOOD TIME? No Reason Why Any Watch Should

Not Do It! Thirty years is a long time to fight so

A watch is a most descrate piece of machinery. Ordinary attention and care will naturally lengthen the life of a watch. If your waich loses or gains time, it must be correctly regulated. Hyour watch needs desping or repairing, it should be done by a competent workman. Experience and skill make a workman competent. I warrant competent treatment for the most coatly or the most humble time piece. Bring It here. Services prompt, charges moderate. painful a trouble as piles, but Jacob Mitchell, of Unionville, Pa., struggled that long before he tried DeWitt's Witch Hazel Salve, which quickly and permanently cured him. It is equally effective in erzema and all skin affections. W. D.

PROCEEDINGS OF LAST NIGHT'S REGULAR MEETING.

Complaint Against Capt. Veber-Warring Elements that Will Not Harmonize-Mr. Memory and Mr. Mance Have a Tilt and Mr. Hirst and Mr. Bastian Free Their Minds-More Rescinding of Resolutions and More New Ones Passed-A Midnight Session With But Lit-

Council was held. last night, present, as it should." President Mance, and Aldermen Ayers, Bastian, Crans, Hust, Memory, Ogden and Tierney.

J. C. R. Taylor addressed Council, calling attention to a bill presented some time ago by F. A. R. Pronk for services the bill had been rejected on the advice of the City Attorney as the Board of Health had fixed Mr. Pronk's salary at \$100 per year, which the city's legal adviser claimed, should compensate him for all services performed. The bill had not been itemized as required by statute and he he had brought with him an itemized

The thought members of the Council were not familiar with all the facts and be would give some information that would enable them to act intelligently. He filed with the bill copies of resolutions of the Board of Health of 1893 and succeeding years which showed the election of Mr. Pronk as clerk at a salary of \$100 per year and also his election as Regis-Tran of Vital Statistics with fees of 25 cents for registering each birth, marriage and death and an additional 25 cents for certifying same to the State Board and 25 cents for each burial or transit permit.

He stated that the statutes provided that Boards of Health shall employ such | persons as are needed and fix their com-Tensation.

A COMPLAINT AGAINST CAPT, VEBER.

Ex-Alderman Ludington addressed Council in the interest of the O. and W. Railway Company. He said he came to make charges against a city official for what he considered a violation of his cath of office.

The company's freight and milk cars are constantly being robbed by tramps, and to prevent it special officers have been appointed all along the line to look after the company's interests. Last Saturday night a tramp was put off a train at Mountain Dale by the conductor but got on again and was put off by a brakeman, but when the train arrived here the tramp was still on board and was arrested and locked up by a special offi-

The man was to have a hearing Sunday morning but the Recorder was out of town and Justice Wiggins was to act. Mr. Ludington then drew from his pocket a letter which he said had been written to Justice Wiggins by Capt. Veber in which the writer said he thought the man should not be kept "in that hole" over Sunday; said he appeared to be a decent fellow and was not aware that stealing a ride was a violation of law. The letter advised the Justice to scare the man and let him go and asked that Mr. Wiggins should not let Jack Skeleton know that he had written the letter.

Later in the evening the matter was disposed of by a motion of Mr. Memory requesting the O. and W. to file a written complaint.

On Mr. Hirst's motion the crosswalk at the prow of the hill on Monbagen aveone was ordered raised and a gutter made on the southwest side of the street to prevent the overflow of the street by

WHITE ROBED PEACE TAKES FLICHT.

It has been apparent since the new Council was organized that there were in that body elements that can never harmonize and from time to time there have been mutterings that indicated a coming storm and the first outbeeak accurred last might.

Monday evening or last week the Mayor recommended repairs to four streets-East Many street, Linden avenue, Cottage street and Wawayanda avenue. A morion was made approving the Mayor's recommendation. Next morning the Street Superintendent commenced to grade Linden avenue, aithough no resolution ordering such work had been passed by Conned.

MR. MLMORY SHIES HIS CASTOR.

Mi Memory was absent on that occasion, but he was present tast night, and was indiginant that such a thing should redone without the approval and consent of the leader of the majority,-i. e. Mr. Memory. In this instance Mr. Memory could afford to make a bold stand, for he was in the right. He opened the ight by offering a resolution providing for the grading of Lincen avenue, from the northerly limit of the city to the northerly line of the Wallace lands, a distance of 1,800 feet, and that a cut be made at the summit on the Wallace lands, not to exceed three feet, the material thus obtained to be used to improve the rondway between the Wallace lands and Hasbrouck street, or such other portions of the street as may need filling; also that a gutter be made on the westerly side of the avenue, from the Wallace lands to Hasbronek street; also to resemd the action at last meeting, so far as it relates to this work.

OPPOSED TO SNAP METHODS.

Mr. Memory then spoke on his resolution. He said he was opposed to such snap methods. The Mayor, president and charman of the Street Committee seem to have resolved themselves into a committee of the whole to run the city. At the grade upon which work has commenced, the cut on the Wallace lands | Mance, Hirst and Tierney voting no.

ins war a BBCHIVE & com

and the work will cost \$2,000. The Street Committee had not been consulted in this matter. The work should never have been attempted without a majority vote of the Council.

MR. MANCE REPLIES.

Mr. Mance-" Was there not a resolution to do this work passed at last meet-

Mr. Memory-"No there was not and besides you are not ready to do it. Certain lands on that street have not been released to the cisy unless they have been since this morning. This Council is not A regular meeting of the Common doing its work openly and above board

Mr. Mance-"Can you establish such a charge?

Mr. Memory-" Yes, I can, and will do so later if desired.

Both Mr. Memory and Mr. Mance were at white heat at this time and an unas Registrar of Vital Statistics. He said | usually large audience was present and enjoyed the fun.

A DIVERSION.

Mr. Crans. who rarely gets excited, stepped in with a motion to curb the corners of Liberty street at Wallkill avenue, and then Mr. Avers followed quickly with a motion to lay a crosswalk across Academy avenue on Washington street, and these gave the disputants time to cool off somewhat.

Mr. Memory moved to grade Houston avenue from Sprague avenue to Prospect avenue. On Mr. Hirst's motion it was referred to the Street Committee.

THE COTTAGE STREET IMPROVEMENT.

Mr. Crans moved to rescind the resolution to grade, curb and gutter Cottage

street, except as to grading.
This brought Mr. Tierney, the author of the resolution, to his feet. He said Mr. Crans was not fully aware of the importance of the proposed work. This street is one of the principal thoroughfares and leads to one of the principal industries and is traveled over by men who go there to earn their daily bread. The property owners are ready to flag and curb at an expense of over a dollar a foot, while the expense to the city will not be twenty cents a foot. He thought there was something behind Mr. Crans' motion. He had said to some members of Council that there was a Catholic Church there and it would be a good thing for it. The church is a big taxpayer and has flagged its own walks. No one connected with the church had suggested to him to offer the resolution. Others, prominent in business, who are not identified with the church, had written up the need of the improvement in the newspapers.

MR. CRANS EXPLAINS.

Mr. Crans disclaimed any prejudice against or intended discourtesy to the Catholic Church. He said the rescinding of resolutions made three, two and one year ago, and ordering this, gave it priority over work ordered previously and it should come after the others. He was opposed to improving long stretches of

Mr. Mance said he knew this road as a street for the last thirty years and was informed it was a street thirty years be-

fore he came here. Mr. Tierney said the street had all the improvements in the way of sewer, water and gas, and now that property owners operation. Messrs. Memory, Tierney and were willing to complete the improve- Allen were appointed such committee. ments with such small cost to the city, they should have what they ask for.

MR. BASTIAN WANTS INFORMATION.

Mr. Bastian, who had been a quiet listener all the evening, took the floor. He wanted to know how much money there is to spend. He had been told that if Cottage street be guttered on both sides it would take nearly the whole of the appropriation. He believed in apportioning the money among the different wards. By this time Mr. Bastian's pent up indignation at the way the business is transacted by this Council, found vent and he freed his mind in language, of which the following is the substance:

DON'T LIKE "THIS CAT-BACKING."

"Why not get together and settle upon what work is to be done and not have this cat-hauling, this boys play, and there will be no such work as we have seen here to-night." Raising his voice to a high pitcl, Mr. Bustian said:

"I have been a member of Council before and it was a pleasure to attend the meetings, but since I have been in this Council I hate like the devil to come here. as there is such wranging and leat-hauling every night.

Mr. Bastian was heartily applauded by the andience.

"LIKE A LOT OF BOAS."

Mr. Hirst said it looked as if everybody had chestants in the fire. Members con. out and get their resolutions passed, and next night like a lot of boys we reseme previous action. Such matters should be referred to the Street Committee so that time for consideration could be had, and members would know what they were doing before taking action. Mr. Mance-"You voted to rescind at

the last meeting.'

Mr. Hirst-"I've done many things I ought not to have done."

Again the audience showed its interest and approval by applauding Mr. Hirst. Mr. Ogden moved as an amendment to Mr. Crans' motion to pave one [side of Cottage street. Mr. Crans refused to ac-

cept the amendment.

Mr. Therney said all work asked for in the First Ward would not cost more than its share of the fund.

Mr. Memory favored Mr. Crans' motion. He said the grading could be done this year and the paving next year. COTTAGE STREET IMPROVEMENT

TURNED DOWN.

A vote on the original motion resulted in five aves and three news, Messrs, will be six feet deep through solid rock . Mr. Hirst made the point that a two-

dent ruled otherwise. LIVERYMAN AYERS' MOTION PREVAILS.

At the last meeting a resolution to allow the Street Superintendent \$6 a week for horse hire was rescinded, and on the Mayor's recommendation a new one allowing him \$1 a day for every day the horse is in use, was passed. Last. night Mr. Ayers, who is in the livery business, has horses to hire, and believes in looking after the interests of liverymen, moved to rescind the \$1 a day resolution, and adopt another allowing the Superintendent \$6 a week for six months from April, for horse hire, and the resolution went through in the usual fashion. The annual report of the Coard of

Water Commissioners was read and placed on file.

APPOINTMENTS BY THE MAYOR.

The following appointments by the Mayor were announced: Park Commissioner, Thos. S. Lane; Examining Plumbers-Wilmot Duryea, J. C. Degnan, Joseph

LIGHTING COMMITTEE POWERLESS,

J. J. Chambers and others complained that an incandescent light ordered several months ago at the lower end of Liberty street had not been put in, and no attention is paid to requests of parties interested. The matter was referred to the Lighting Committee, but Mr. Hirst said that would do no good, as the committee had repeatedly asked to have the light put in.

Resolutions to build crosswalks at Liberty street and Waalkill avenue, Knapp and Wickham avenues and Albert street and Wickham avenue were returned endorsed disapproved.

BIDS FOR BRIDGE TIMBER.

Bids for a carloud of bridge timber were opened and were as follows:

L. V. Sinsabaugh & Co., yellow pin-\$22 per \$1,000 feet; C. R. Fuller, spruce \$16 per 1,000, and yellow pine \$19 per per 1,000 feet; Gordon & Horton, \$325 for spruce and \$330 for yellow pine for whole quantity desired, equivalent to \$19.80 per 1.000 for spruce and a fraction over \$20 per 1,000 for yellow pine. On Mr. Hirst's motion Mr. Fuller's bid was accepted.

THE CITY'S STORAGE BILL.

Mr. Hirst reported that Excelsior's old truck and Waalkill's oldservice truck are stored at an annual cost of \$12 each and Eagle's sleigh at \$10. The clerk reported that the election booths are stored at a cost of \$30, making a total cost for storage of \$64 per year.

A bill of C. C. Lutes, Registrar of Vital Statistics, which had been referred to the Law Committee, was taken up, but referred back to that committee, as action on this would settle the question of Mr. Pronk's bill for similar services.

G. Hoag, representing the Good Roads Machine Co., talked stone crusher to the aldermen for some time, showing by drawings and photographs the merits of his Champion Crusher.

Mr. Howard presented the memts of the Western crusher and ex-Alderman Greene of the Blake crusher.

On Mr. Merzory's motion a committee was appointed to visit Washingtonville and Spring Valley and see crushers in

Mr. Mance spoke of the need of a sewer in Cortland street and in Wickhans avepue. Referred to Sewer Committee.

A bill of R. G. Sliter for stone work was referred to the City Engineer to make measurements

On Mr. Ayers' motion the City Engineer was directed to prepare plans and specification for the alterations to the King street building and the City Clerk was directed to secure bids for the work to be opened at the next regular meeting.

A bill for \$50 for injuries alleged to have been sustained by John T. Bull, of Circleville, by reason of a defective roadway in the North End, was presented and referred to the Law Committee.
